What is it about?
Many cloud vendors offer Software as a Service, such as Office Suites. In this project, it should be investigated if it is possible to transfer a Google Docs document online to another vendor and its SaaS application, e.g. Microsoft and Office 365? How can this easily be achieved online?

Goals?
» Analysis of different cloud SaaS providers
» Evaluation of document transfer possibilities
» Prototypical implementation

Skills?
» Interest in electronic documents and SaaS
